

## Cleanfield Enhances Investor Relations Campaign and Benefits from Publicity

**TORONTO, ONTARIO – March 26, 2010** – Cleanfield Alternative Energy Inc. ("Cleanfield", TSX-V: AIR), an international leader in vertical axis wind turbine (VAWT) technology solutions, has augmented its investor relations activities, with the goal to increase awareness throughout the North American investment communities. In addition to maintaining an informative website, Cleanfield has:

- Recently entered into an arrangement with RB Milestone Group LLC ("RBMG"), an equity research firm in New York providing its corporate, banking and investor members with innovative research and IR solutions through its proprietary platform The Portal Network; RBMG has nearly 300, mostly institutional, investor members, "We encourage our existing shareholders and company followers to sign up to The Portal Network™ by clicking the following link, <http://www.rbmilestone.com/register>. The username and password will allow users to access Cleanfield's Portal page"
- Partnered with VantageWire, a website geared to creating awareness of TSX-listed companies by disseminating information on line to investors, brokers, analysts and newsletter writers. VantageWire's website can be accessed by clicking the following link, <http://www.vantagewire.com>

Cleanfield CEO Tony Verrelli remarked, "Since the launch of our IR program in November 2009, we have experienced increased awareness by institutional and retail investors. We are pleased with these results and will continue to effectively communicate our milestones and progress to the investment communities."

Cleanfield has also benefited from publicity:

- The Ontario Ministry of Energy & Infrastructure has recently produced and televised an advertisement about revitalizing the province's infrastructure that features Cleanfield's VAWTs recently installed on a rooftop of Durham College's Whitby Campus building east of Toronto (<http://www.infrastructureapp.mei.gov.on.ca/en/videos.asp>)

**About Cleanfield:** We are committed to developing renewable energy products primarily for urban environments. Cleanfield's industry leading VAWT, which can be mounted on a tower, rooftops or integrated into building designs, offers elegant and quiet point of use renewable green energy generation.

**Forward Looking Statements:** Certain statements in this news release may be considered to be forward-looking. These statements relate to future events or Cleanfield's future economic performance and reflect the current assumptions and expectations of management. Unknown factors may affect the events, economic performance and results of operations described herein. Cleanfield undertakes no obligation, and does not intend to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable law.

The TSX Venture Exchange does not accept responsibility for the adequacy or accuracy of this release.
