

Cleanfield's Partner, Sai Prasad Energy, Officially Opens Manufacturing Facility in India

TORONTO, ONTARIO – June 28, 2011 - Cleanfield Alternative Energy Inc. ("Cleanfield") (TSX VENTURE: AIR), announced today that its Indian strategic partner and shareholder Sai Prasad Energy ("SAI") officially opened its new renewable energy manufacturing facility in Pune, India. The facility will have the capacity to annually manufacture 1,200 units of Cleanfield's 5.1kW off-grid hybrid system comprising of a 3.5KW vertical axis wind turbine and a 1.6KW solar system. Sai will be installing 13 off-grid hybrid systems over the next several months at petroleum stations, commercial facilities, and hotels. Furthermore, Sai has already undertaken a vendor development program for the distribution of the hybrid system.

Cleanfield's CEO Tony Verrelli said, "I was extremely excited to participate in SAI's inauguration of their renewable energy manufacturing facility in Pune. With the facility officially opened, our common goal of widely distributing our hybrid system is gaining momentum. The off-grid hybrid system and our partnership with SAI allows Cleanfield to compete for new market opportunities which Cleanfield would not have otherwise been able to participate in. Partnering with SAI has enabled Cleanfield to expand our product offering and penetrate the Indian and Asian markets."

Share Issuance

Cleanfield received approvals to issue 871,550 common shares at \$0.10 per share to satisfy certain debt owing to four arm's length creditors of its subsidiary, Cleanfield Energy Corp. All common shares issued are subject to a four-month Exchange hold period expiring October 23, 2011.

Stock Option Grant

Cleanfield also announces that it granted 350,000 stock options to directors of the Company and 250,000 stock options to a consultant performing investor relations activities. The options of the directors and 125,000 of the options issued to the consultant are exercisable at a price of \$0.15 cents per common share. The remaining 125,000 options issued to the consultant are exercisable at a price of \$0.30 cents per common share. The options expire on June 23, 2016.

About Cleanfield: Cleanfield is an innovative technology company focused on the research, development and distribution of renewable energy solutions for the urban environment. The company owns industry leading and proprietary inverter technologies, which it currently sells through a complete solution – a 3.5 kW vertical axis wind turbine. The company is also developing several advanced solar photovoltaic technologies with strategic partners.
