

## **Cleanfield Energy™ Wind Turbines to be Installed on the Bar XH Airport Hangar in Alberta**

### **FOR IMMEDIATE RELEASE**

**ANCASTER, ONTARIO, (February 12, 2009)** - Cleanfield Energy™ Corp ("Cleanfield"), a subsidiary of Cleanfield Alternative Energy Inc. (TSX Venture: AIR), an international leader in Vertical Axis Wind Turbine (VAWT) technology, announced today that it has received a purchase order for the installation of 2 VAWTs at the Bar XH Sales Inc/Super T Aviation Hangar in Medicine Hat, Alberta.

Bar XH Sales Inc/Super T Aviation has contracted Mid-West Design and Construction Ltd. from Medicine Hat, Alberta to be the designer and General Contractor on this project. In collaboration with Terralta, the installer of the roof top wind turbines, the project will be completed by the Spring of 2009.

"This is a great opportunity for Cleanfield to be included in such a high profile installation in Western Canada on the rooftop of a brand new commercial airport hangar. Both Mid-West Design and Construction, and Bar XH Sales Inc/Super T Aviation are demonstrating their leadership in the design of a sustainable commercial building. It continues to show how more and more progressive companies are now showing environmental leadership by designing in wind turbines onto the rooftops of their buildings." said Tony Verrelli, CEO of Cleanfield Energy.

"We are so excited about the installation of the Cleanfield Energy vertical axis wind turbines on the roof of our new hangar and office facility here at the Medicine Hat Airport!" Said Terri Super, co-owner of Bar XH Sales Inc/Super T Aviation Academy. "We believe the wind turbines, in conjunction with the geo-thermal system, will drastically reduce our need for non-renewable fuels for heating and cooling. We are committed to protecting and managing our environment as best we are able to for future generations and we believe we must take on this challenge not only in our personal lives but in our business life as well. The rooftop wind turbines are part of a total innovative package aimed at achieving this goal".

#### **About Cleanfield Alternative Energy Inc.**

Cleanfield Alternative Energy Inc. is the parent company of Cleanfield Energy Corp. and is committed to the development of renewable energy products for both consumer and commercial applications. Cleanfield's tailor-made Vertical Axis Wind Turbine can be mounted on a tower or suitable rooftop, offering electricity independence and security.

#### **About Bar XH Sales Inc/Super T Aviation**

Bar XH Inc is a diverse aviation service that creates a rewarding environment of trust and friendship among customers, employees and suppliers. As it grows, they continue to build a secure, honest business that provides new challenges through the advancement of our equipment, and the knowledge and training of their team.

#### **About Mid-West Design and Construction Ltd.**

Mid-West Design specializes in design/build projects, customizing buildings that are visually appealing, versatile and durable to meet the needs of individual clients. They offer flexibility of

expansion in both Rigid Frame (Flex-Sys) and Frameless (Corr-Span) BEHLEN buildings. Along with these, they offer wood framed metal clad buildings for farm or commercial applications.
